ALLIED PROPERTIES REAL ESTATE INVESTMENT TRUST
NOTES TO FINANCIAL STATEMENTS
(In thousands of dollars except per unit and unit amounts)
(Unaudited)
June 30, 2005 and June 30, 2004

1. The Trust

Allied Properties Real Estate Investment Trust (the "REIT") is an unincorporated closed-end real estate investment trust created pursuant to the Declaration of Trust dated October 25, 2002, subsequently amended and restated on February 6, 2003. The REIT is governed by the laws of the Province of Ontario and began operations on February 19, 2003. The units of the Trust are traded on the Toronto Stock Exchange.

These financial statements present the financial position of the REIT as at June 30, 2005 and the results of operations and cash flow for the three month period ended June 30, 2005 and the six month period ended June 30, 2005.

2. Acquisitions

Net assets with respect to rental properties acquired were as follows (using the purchase method of accounting):

	Six Month Period Ended June 30, 2005 (Unaudited)	Three Month Period Ended June 30, 2005 (Unaudited)	Year Ended December 31, 2004 (Audited)

Fair value of in-place leases	2,812	1,693	8,398
Fair value of above-market leases	1,059	416	4,463
Fair value of below-market leases	(661)	(289)	(1,379)

The REIT allocates the purchase price of an acquired rental property on a preliminary basis, to the identified assets and liabilities acquired based on their estimated fair values at the time of acquisition. The purchase prices allocations are considered preliminary until the REIT has obtained the necessary information to complete its allocations.

3. Summary of Significant Accounting Policies

(a) Basis of Presentation

The REIT's financial statements have been prepared in accordance with Canadian generally accepted accounting principles.

(b) Use of Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

(c) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, balances with banks and short term deposits with original maturities of three months or less.

(d) Rental Properties

Rental properties include land, buildings, improvements and acquisition costs that are capitalized as part of the cost of rental properties.

Rental properties are stated at the lower of cost less accumulated amortization and fair value. If conditions indicate the carrying amount may not be recoverable, the REIT determines if an impairment exists and a write-down to fair value is needed by comparing the carrying amount to the net recoverable amount. The net recoverable amount represents the undiscounted estimated future cash flow expected to be received from the ongoing use of the properties together with the residual value of the properties.

Amortization on buildings is recorded on the straight-line basis over the useful life of the buildings, estimated at 40 years.

Upon the acquisition of rental properties, the REIT evaluates all in-place tenant lease agreements to determine if the leases are at, below or above market rates. If a lease is determined to be above or below market rates, a corresponding asset or liability is recorded and amortized into income over the life of the lease. Also at the time of acquisition, an asset representing the fair value of the costs of the leasing commissions and tenant inducements that the REIT would have otherwise incurred if it had originated each lease agreement acquired is recorded and amortized over the lease's remaining life. Furthermore, an asset representing the fair value, if any, of the relationship with a customer or tenant is created upon the acquisition of the property.

(e) Distribution Reinvestment Plan (DRIP)

The REIT has instituted a DRIP whereby Canadian unitholders may elect to have their distributions automatically reinvested in additional units. Unitholders who so elect will receive a further distribution of units equal in value to 5% of each distribution that was reinvested. No commissions, service charges or brokerage fees are payable by participants in connection with the DRIP.

(f) Revenue Recognition

Rental revenue includes rents from tenants under leases, property tax and operating cost recoveries, parking income and incidental income. Rental revenue with respect to rents from tenants under leases is recognized ratably over the term of the lease.

(g) Unit-based Compensation Plan

The REIT accounts for employee unit-based options by measuring the compensation cost for options granted on or after January 1, 2002 under the fair value-based method using a Black-Scholes option pricing model.

(h) Per Unit Calculations

Basic earnings per unit is calculated by dividing net earnings by the weighted average number of units outstanding for the period, excluding those units issued under the Long Term Incentive Plan, which are not fully paid up. The calculations of earnings per unit on a diluted basis consider the potential exercise of outstanding unit purchase options, if dilutive, and are calculated using the treasury stock method. The calculation of earnings per unit on a diluted basis includes those units issued under the Long Term Incentive Plan, which are not fully paid up.

12. Long-Term Incentive Plan

Officers and trustees of the REIT have been granted the right to participate in a LTIP, whereby the participants may subscribe for units for a purchase price equal to the weighted average trading price of the units for five trading days preceding the date of the grant. The purchase price is payable ("installment loan receivable"), over a term not exceeding 10 years, bears 3% interest on any outstanding balance and has full recourse to the participant. The units issued under the LTIP are held by a custodian for the benefit of the Participants, until the purchase price has been paid in full. Cash distributions paid in respect of the units issued under the LTIP are applied to the installment loan receivable.

An aggregate of 259,390 units are reserved for issuance, pursuant to the LTIP and, during the six month period ended June 30, 2005, 76,224 Units were issued at a purchase price of \$13.46 per unit.

The fair value of the LTIP is the estimated present value of the 1.5% imputed interest benefit and an assumed market rate of return of 4.5%, over an estimated expected term of ten years. For the six month period ended June 30, 2005, compensation cost of \$109, attributable to the LTIP, was charged against earnings with a corresponding amount included in unitholders' equity as units issued. The LTIP installment loans receivable are recognized as deductions from units issued. Distributions received under the LTIP are charged to unitholders' equity while interest received under the LTIP is credited to distributions.

13. Income Taxes

The REIT is taxed as a "Mutual Fund Trust" for income tax purposes. The REIT is required by its Declaration of Trust to distribute or designate all of its taxable income to unitholders and to deduct such distributions or designation for income tax purposes. Accordingly, no provision for income taxes has been made. Income tax obligations relating to distributions of the REIT are the obligations of the unitholders.

14. Financial Instruments

In the normal course of its business, the REIT is exposed to a number of financial risks that can affect its operating performance. These risks and the actions taken to manage them are noted below. The REIT does not have foreign exchange risks as it holds only Canadian dollar denominated assets and liabilities.

(a) Interest Rate Risk

All of the REIT's mortgages payable at June 30, 2005 are at fixed interest rates and are not exposed to changes in interest rates. Bank indebtedness is at floating rate interest rates and is exposed to changes in interest rates. As fixed rate debt matures and as the REIT utilizes additional floating rate debt under the revolving credit facilities, the REIT will be further exposed to changes in interest rates. As part of its risk management program, The REIT endeavors to maintain an appropriate mix of fixed rate and floating rate debt and to stagger the maturities of its debt.

(b) Credit Risk

Credit risk arises from the possibility that tenants may experience financial difficulty and be unable to fulfill their lease commitments. The REIT's credit risk is limited to the recorded amount of tenant receivables.

The REIT does not acquire, hold or issue derivative financial instruments for hedging or trading purposes.

15. Segmented Disclosure

Substantially all of the REIT's assets are in, and its revenue is derived from, the downtown Toronto office market.

Head Lease:

Certain vendors entered into a lease dated February 20, 2003 for 16,686 square feet of office space for a five year term, expiring on February 19, 2008, (the "Head Lease"). The Head Lease has been amended such that the term with respect to 2,747 square feet expired on May 31, 2004 and the term with respect to 5,596 square feet expired on July 31, 2004. The REIT has entered into lease agreements with new tenants for the 2,747 square feet and the 5,596 square feet for terms, which expire subsequent to February 20, 2008. The obligations of the vendors under the Head Lease are secured by cash of \$575, which is held in an escrow account by the Property Manager. These vendors are under common control of certain trustees of the REIT.

Guarantee and Lease:

TechSpace Canada Inc. ("TechSpace"), a subsidiary of the Property Manager, leased 29,102 square feet of office space from the REIT on commercial terms. The lease was to expire on September 30, 2010. The Property Manager indemnified the REIT in respect of all of TechSpace's obligations under the lease. The REIT entered into a lease directly with a new tenant effective January 1, 2004 for the 29,102 square feet. The indemnity from the Property Manager remains in place to protect the REIT from any revenue shortfall (on a cash basis) from the original TechSpace lease. This lease was terminated on April 30, 2005 and a new lease has been entered into with a current tenant of the REIT for a term of July 1, 2005 to April 30, 2008. The indemnity remains in effect to September 30, 2010.

Bridge Covenants:

Certain vendors of the rental properties provided bridge covenants (collectively the "Bridge Covenants") to the REIT in respect of certain office space leased to third party, non related tenants. These Bridge Covenants provide the REIT with an income stream to coincide with rent-free periods that the vendors provided to the tenants, prior to the REIT acquiring the rental properties. These vendors are under common control of certain trustees of the REIT.
